COMPILED BY
THE REV. WALTER COX GREEN, A. M., S. T. B.
LIBRARIAN AND SECRETARY OF THE FACULTY

MEADVILLE, PA.
1920

The publication of the first edition of the General Catalogue was made possible by the action of the Meadville Alumni Association at its annual meeting in 1909, in placing a sum of money at the disposal of the compiler, and by the advance subscriptions of former students. A copy of the book was sent postpaid upon the receipt of one dollar.

An edition of three hundred copies was printed.

PREFACE TO FIRST EDITION

Shortly after taking up my work in 1904 as the Librarian and the Secretary of the Faculty of the Meadville Theological School, I began in my leisure hours, as a labor of love, the compilation of this General Catalogue, in which I have tried to give the following information about persons who have ever been students, both as graduates and undergraduates:

1. A complete list of the full names of the graduates, arranged in order by the year of graduation. In the case of women who have married after leaving the School, their names after marriage are added in brackets.

2. A complete list of the full names of the non-graduates, arranged in the order of the years in which they left the School. In the case of women who have married since leaving the School, their names after marriage are added in brackets.

3. The * before a name shows that the person has died. The dagger after the name shows that the name of the student is not to be found in the annual catalogue for that year, usually because the student entered the School after the annual catalogue had been printed.

4. The number of years that the student was connected with the School is shown by the figures, 1, 2, 3, 4. An incomplete year is shown by a dash after the figure, as 1—

5. The degree of B. D., when granted by the School, is placed after the word Graduate, with the date of the granting of the same in brackets, if it was other than the year of graduation. A list of such degrees will be found in Appendix II.

6. The place and date of birth. The date is omitted in the case of women now living.

7. Degrees from colleges and universities, with the names of the institutions granting them, and the year in which they were granted.

8. The name of the ministry, with the place and date of ordination.

9. The name of the church, usually the name as it then was, with the present name in brackets. This item is not usually given in the General Catalogues of the theological schools in the United States, but it has seemed to me to be a valuable part of the ministerial record.

10. The month and day and year when a pastorate began, and the month and the day and year when it ended. In some cases the dates of ordination and installation are added.

11. In some few cases when the student did not enter the ministry, or did not stay in it long, other items of information are given.

12. Chaplaincies, with the name of the regiment, and the dates of service, both in the Civil War, in later time, and in the state legislatures.

13. The place and date of death.

14. Reference to printed biographies, and to the obituary notices in the American Unitarian Association Year Books, and in the denominational papers.

In a few cases some of the above items have been omitted at the request of those furnishing information.

The compilation of all this material has been in some cases difficult and in others easy.

One difficulty has been the lack of printed lists of the graduates, arranged by the year of graduation. In the catalogue for 1855-1856, such a list of the graduates, arranged by the year of graduation, was printed, together with a complete list of all other students. In the catalogues for the years 1875-1876 and 1889-1890, a list was printed of all who had ever entered the School, but arranged simply by the year of entrance. A similar list was printed in the catalogue for 1899-1900, but with the names of the graduates printed in heavy black faced type. At present the only complete lists of graduates are two old typewritten lists. In some cases I have relied upon the faculty records, but even these are not wholly satisfactory on this point. Again some confusion has resulted from the fact that in some years, certificates were granted to students who had been in the School for a partial course, and who might be spoken of as "certificated undergraduates," or "graduates from a partial course." In some cases old students have confused these two lists. Such a list will be found in Appendix I.

Another difficulty has been the lack in the Meadville Theological School Library of the newspapers and year books of the Christian connection. As many students in the early years of the School entered that ministry, access to these old records would have made this compilation more complete. The compiler would be pleased to hear of the existence of a complete file of the Herald of Gospel Liberty.

Another difficulty comes from the large number of students in the earlier years who stayed but a short time in the ministry, or who never entered any ministry, and so have been lost track of by their ministerial schoolmates.

Another difficulty comes from the disbandment of churches where students were settled years ago, about which one can learn but little in these days, and whose records are no longer in existence. In some cases the records of churches still extant have been so poorly kept that they do not tell when a minister came and when he left.

A final difficulty comes from the registration blanks to be filled out by the student upon entering the School. With the exception of the first five years and the last six years, I have not been able to find any registration or matriculation blanks that give the full name and place and date of birth of the student, with his educational record, and in some cases his ministerial record before entering the School.

On the other hand, the work of the compiler has been helped in two ways. In 1893 the Rev. William Ladd Chaffin, a graduate of the class of 1861 and a Trustee of the School, sent out, as Secretary of the Meadville Alumni Association, a printed blank to all the old students then living, with questions, covering almost the same ground as planned in this General Catalogue. The results were over a hundred well filled blanks, together with a lot of information, all of which most useful material has been kindly placed at my disposal by the Meadville Alumni Association. This information was especially valuable, as the number who filled out the blanks in 1893 has become rapidly less, year by year. And it is safe to say that without this information this General Catalogue would not have been as perfect as it is now.

A second help came to the compiler from the fact that some seventy odd students have studied at the Harvard Divinity School, either as graduates or as undergraduates, and so their record, down to 1910, has been found in print in the General Catalogue of the Harvard Divinity School.

The sources for the compilation of this General Catalogue have been the blanks referred to above, the blanks sent out by the compiler, both to former students and to the clerks of the churches, extracts from the files of the Christian Register, the Unitarian, Unity, the Pacific Unitarian and the Southern Unitarian, the year books of the American Unitarian Association, the quarterly and monthly journals of the American Unitarian Association, and in some few cases the year books of other denominations.

Parts of the General Catalogue have appeared in print, in the earlier number of the Meadville Theological School Quarterly Bulletin. Part I, 1846-1853, appeared in the January, 1909, number; part II, 1854-1861, in the July, 1909, number, and part III, 1862-1868, in the October, 1909, number. One advantage of this has been that a number of mistakes have been found and corrected.

In conclusion the compiler would thank all those who have helped him in this work by answering the questions sent to them, and by suggesting the names of relatives of students now gone, and he would also here record his indebtedness to Professor N. P. Gilman, of the Meadville Theological School, who has kindly looked over the proof of this book. The compiler would be much pleased to receive corrections of any mistakes that have crept into this work, so that the next edition of this General Catalogue may be made more perfect.

EXPLANATION

The large figures, 1846, 1847, etc., show the year of graduation. The names of the graduates for that year are printed in black letter capitals and are arranged alphabetically. A long dash separates the names of the graduates from the names of those who left the School during that year and who might be spoken of as undergraduates. These latter names are printed in lower case black letters and are arranged alphabetically.

The * before the name shows that the person has died. The figures 1, 2, 3, 4 indicate the number of years that the person was connected with the School, and if a figure is followed by a dash, as 1—, it means that the person left the School before the year was finished.

The words, "Certificated Undergraduates," are explained in the preface. The † after the number of years shows that the name of that person is not to be found in the School catalogue for that year, usually because the person entered the School after the catalogue was printed.

The letters B. D. show that the person received the degree of Bachelor of Divinity from the Meadville Theological School, and if the degree was received at a date other than the year of graduation, this fact is shown by the date of granting the degree being placed in brackets.

The record of each person has been made as far as possible a chronological one. The records begin with the place and date of birth, the college and honorary degrees received, the ministry followed and the places and dates of the pastorates, and the place and date of death in the case of those not now living. The only exceptions to this chronological order are the honorary degrees which for sake of convenience are placed after the college degrees. The dash at the end of a record indicates that the pastorate or position is not yet ended.

When a church or society has a name different from the name it had years ago, I have as a general rule given the name of the church or society as it was when the person had a pastorate, with the present name in brackets.

The name of the church or society is followed by the name of the place and the name of the state or the customary abbreviation, as "First Parish, Hingham, Mass." But when the name of the church ends in the name of the place, the name of the place is not repeated, as "First Parish in Sandwich, Mass." And when two churches named in succession are in the same state, the name of the state is not repeated, as "First Parish, Hingham, Mass., and First Congregational Society, Needham."

PREFACE TO SECOND EDITION

When it was decided to hold the Seventy-fifth anniversary of the School in June, 1920, it was also decided to issue a new edition of the General Catalogue. The second edition is made up on the same plan as the first, with two differences. In the first place the names of the churches are omitted unless there are two churches of the same denomination in the same city and in the second place the names of months have been abbreviated. All ordinations at Meadville are understood to have been held at the Independent Congregational Church unless stated to have been held in the Theological School. Since the first edition was issued the compiler has come across the original matriculation book which gives the age at admission of all the students though not the date of birth nor the name in full. The compiler is under great obligations to Professor Clayton R. Bowen who has helped him in this second edition and in reading the proofs of the same.

It will interest all friends of the School to know that the Rev. George Gardner Withington of the class of 1854 is the oldest living Alumnus and that the Rev. William Ladd Chaffin, graduate of the class of 1861, is the longest settled Unitarian minister now in active service, having begun his pastorate at Unity Church, North Easton, Massachusetts, Jan. 1, 1868, and senior minister from 1905 to date.

Appendix IV contains a list of the degrees of D.D. and of Th.D. that have been granted by the Meadville Theological School.

INDEX

The names of graduates are printed in small capitals, while the names of non-graduates are printed in lower case letters. The * before he name shows that the student has died. The † after the name shows that the name of that student will not be found in the annual catalogue for that year, usually because the student entered the School after the catalogue had been printed. Women who have married since leaving the School are entered under their maiden names, with a cross reference from their names after marriage. The number at the end after the name indicates either the year of graduation, or the year during which the student left the School. If there are two numbers, it means that the student was twice connected with the School. Usually the full details are to be found under the second year.
